PORTFOLIO

BAGMET-
DENIS.GITHUB.IO/PORTFOLIO

SKILLS

Languages: English (B2), Ukrainian (Native), Russian (Native)

Mobile: Flutter, Dart, Swift, SwiftUI

Backend: Node.js, Express.js, REST API, Firebase

Security & Research: Reverse Engineering, Frida, Burp Suite, JADX, Mobile Security

EDUCATION

*B.Sc. in Computer Science
(Software Engineering)
Donetsk National University — 2021*

PROFILE

- **Senior Mobile Engineer with 6+ years** of experience building and shipping **Flutter** and **native iOS** applications;
- Built and released **50+ production mobile applications**, including high-load e-commerce and media products for international markets;
- Specialized in **mobile architecture, backend integrations, real-time systems and performance optimization**;
- Strong background in **mobile security research and reverse engineering**, including vulnerability discovery in **Telegram and other large-scale platforms**.

EXPERIENCE

• Aug 2023 — Present | Flutter Developer | [Adlibis]

Tech stack: Flutter, Dart, Firebase, REST API, Push Notifications, Deep Links, CI/CD

- Built and released **10+ Flutter applications** for iOS and Android;
- Implemented REST APIs, offline support, analytics, push notifications and native integrations;
- Delivered applications from **architecture to App Store / Play Store release**.

• Oct 2019 — Present | Senior Mobile Engineer | Contract Development / Product Teams

(including MobSolutions, startups & outsource teams)

Tech stack: Flutter, Swift, SwiftUI, UIKit, Node.js, Firebase, WebSockets, REST API

- Built and released **40+ mobile products** across e-commerce, media and startup domains;
- Developed applications for **US, UAE and EU markets**;
- Implemented **real-time systems, media pipelines and native integrations**;
- Led mobile development **end-to-end: architecture, backend integration and production delivery**.

• Jan 2017 — Sep 2019 | Mobile Security Researcher / Android Reverse Engineer | X-COM

Tech stack: Python, Frida, Burp Suite, JADX

- Conducted **mobile reverse engineering and security research**;
- Identified vulnerabilities in **Telegram and other major platforms**;
- Developed **OSINT tooling** for digital identity investigations.
